1 Overview

This section describes an overview of the functions of NB Web Interface. This also describes the Operating Environments for NB Web Interface.

1-1 What is NB Web Interface?

NB Web Interface is a function that monitors a screen that an NB-series HMI displays using a web browser on a personal computer connected via Ethernet to an NB-series HMI (Programmable Terminal called “the PT”).

NB Web Interface has the following functions.

- Monitors a PT screen at the site using a web browser.
- Operates a PT screen at the site using a web browser.
1-2 What NB Web Interface Can Do

This section contains the usage examples of NB Web Interface.

- **Remote Monitoring**
  NB Web Interface allows users to check error and alarm details displayed on the PT by accessing the end user's PT from a web browser. Also, when users instruct an operator, users can check work done by the operator using a web browser.

- **Remote Operation**
  User can access the PT using a web browser. From a web browser, it is possible to remote control the PT.
1-3 Operating Environments

The following shows the system configuration for connecting a PT on a network to a personal computer using NB Web Interface.

1-3-1 Necessary NB Series Configuration

- **NB-series PT Models**

Any of the following NB-series is required to use NB Web Interface.

<table>
<thead>
<tr>
<th>NB Model</th>
<th>Lot No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>NB3Q-TW01B</td>
<td>09X13M or above</td>
</tr>
<tr>
<td>NB5Q-TW01B</td>
<td></td>
</tr>
<tr>
<td>NB7W-TW01B</td>
<td></td>
</tr>
<tr>
<td>NB10W-TW01B</td>
<td></td>
</tr>
</tbody>
</table>

When the NB model above do not have web server function, please use NB-Manager version 1.30 or above to update the kernel and file system, for operation detail, please refer to [4-4 System Operate] of NB series NB-Designer Operation Manual.

- **NB Designer Version**

The following version of the system program must be installed in your NB-series in order to use the NB Web Interface.

<table>
<thead>
<tr>
<th>NB Designer Version ( including NB Manager)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Version 1.30 or later*</td>
</tr>
</tbody>
</table>

In the NB-Manager, if there is “Web Interface Operation” option on the left side, it means this NB-Manager supports web server function.

*For download the application programs, please access your local Omron website. If local site cannot be found, please access Omron IA global site "http://www.ia.omron.com/ "at first and select the area where you are.

1-3-2 Necessary Network Environments

Your NB-series must be able to be connected to a personal computer via one of the following Ethernet standard in order to use the NB Web Interface.

<table>
<thead>
<tr>
<th>Standard</th>
</tr>
</thead>
<tbody>
<tr>
<td>10Base-T or 100Base-TX</td>
</tr>
</tbody>
</table>

1-3-3 Necessary Web Browser

The following web browsers can show a PT screen on a personal computer.

<table>
<thead>
<tr>
<th>Web browser</th>
</tr>
</thead>
<tbody>
<tr>
<td>Microsoft Internet Explorer Ver.8</td>
</tr>
<tr>
<td>Microsoft Internet Explorer Ver.9</td>
</tr>
<tr>
<td>Safari (IOS.6x)</td>
</tr>
</tbody>
</table>
2 Using NB Web Interface

This section explains how to connect a PT to a web browser on a personal computer using NB Web Interface.

2-1 Connection Method

This section explains how to connect a PT to a web browser on a computer using NB Web Interface. This document uses Windows 8 and Microsoft Internet Explorer Ver.9 as an example. For details on the operating system, the setting of the web browser and operation methods, refer to manuals for each product.

2-1-1 PT Settings

To use NB Web Interface, the following settings must be made in the project of NB.
1. Use NB-Designer, open the project which will be download to the PT, add bit button component in the frame, set type to “Alternate” in the bit button property, and set the address to LB9175.
2. Compile and download the project to PT.
3. Click the bit button on the PT to switch ON of address LB9175.

2-1-2 Connecting a Web Browser to a PT

This section explains how to connect a Web Browser to a PT.
1. Start a web browser.
2. Input the following URL.
   http://(PT IP Address)/

For example, when the PT IP Address is “192.168.0.1”:

3. The login screen will be displayed.

### Screen | URL
--- | ---
Monitor Screen | http://(PT IP Address)/monitor.html
Operation Screen | http://(PT IP Address)/operation.html
Configuration Screen | http://(PT IP Address)/config.html
Menu Screen | http://(PT IP Address)/menu.html

Microsoft product screen shot(s) reprinted with permission from Microsoft Corporation.
Reference
The NB Web Interface login uses the Basic Authentication defined by the HTTP.
It is possible to set whether to use the user authentication login screen or not when displaying
Monitor Screen. Refer to 4 NB Web Interface Settings for the settings.

4. Enter the user name and password.
The factory settings for the user name and password are as follows.

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>User name</td>
<td>default</td>
</tr>
<tr>
<td>Password</td>
<td>default</td>
</tr>
</tbody>
</table>

Reference
- The user name and password can be changed by NB-Manager, for details please refer to 5 Authentication settings.

5. Click OK Button. The menu screen will be displayed.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Monitor</td>
<td>Monitors the screen currently displayed on the PT.</td>
</tr>
<tr>
<td>Operation</td>
<td>Monitors the screen currently displayed on the PT.</td>
</tr>
<tr>
<td></td>
<td>Operates the PT screen by mouse clicking the web browser.</td>
</tr>
<tr>
<td>Configuration</td>
<td>Make settings related to NB Web Interface.</td>
</tr>
</tbody>
</table>

Details on each screen are explained in 3 The Functions of NB Web Interface.

Reference
- The initial screen can be changed by setting. For details on the setting, refer to 4 NB Web Interface Settings.
3 The Functions of NB Web Interface

This section explains the functions of NB Web Interface.

3-1 A List of the Functions of NB Web Interface

NB Web Interface has the following functions (screens).

<table>
<thead>
<tr>
<th>Detail</th>
<th>Content</th>
</tr>
</thead>
<tbody>
<tr>
<td>Menu screen</td>
<td>The menu screen of NB Web Interface.</td>
</tr>
<tr>
<td>Monitor screen</td>
<td>Monitors the screen currently displayed on the PT.</td>
</tr>
<tr>
<td>Operation screen</td>
<td>Monitors the screen currently displayed on the PT. Also operates the PT</td>
</tr>
<tr>
<td>Configuration screen</td>
<td>Make settings related to NB Web Interface.</td>
</tr>
</tbody>
</table>

Reference

- For Configuration screen, refer to 4 NB Web Interface Settings.
3-2 Menu Screen

The Menu screen displays the following screen.

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Menu screen</td>
<td>Displays a list of the NB Web Interface screens.</td>
</tr>
<tr>
<td></td>
<td>Clicking will jump to each screen.</td>
</tr>
</tbody>
</table>
3-3 Monitor Screen

3-3-1 Monitor Screen
The Monitor screen is used to display a PT screen. It displays the screen as follow. (e.g.)

![Monitor Screen Example]

<table>
<thead>
<tr>
<th>No.</th>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Monitor Screen</td>
<td>Displays a PT screen.</td>
</tr>
<tr>
<td>2</td>
<td>Latest Captured</td>
<td>Displays the date and time when a PT screen was read.</td>
</tr>
</tbody>
</table>

Reference
- A PT screen cannot be operated with the Monitor screen.
- To operate a screen, please enter into the Operation screen.
- To hide the Latest Captured time, should be set in configuration page. For details on the setting, refer to 4 NB Web Interface Settings.

3-3-2 Updating a Screen Display
The Monitor Screen periodically reads a screen displayed on the PT and updates the screen in a certain interval set in the Configuration screen. (Default: 15 seconds) For details on the setting, refer to 4 NB Web Interface Settings.
3-3-3 Specifying the Display Image Format of the Monitor Screen

NB Web Interface displays a Windows BMP, JPEG or PNG format image of a PT screen on a web browser. To select one of the formats, make a setting in the Configuration screen.

Reference

- The display picture format settings in the Configuration screen will also be used for the Operation screen.

3-3-4 Not Using the User Authentication

It is possible to set whether or not to use the user authentication (Login screen display) when directly specifying a URL to open the Monitor screen. For details on the setting, refer to 4 NB Web Interface settings.
3-4 Operation Screen

3-4-1 Operation Screen
The Operation screen is used to display the PT screen and operate the screen.
The Operation screen displays the following screen. (e.g.)

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Operation screen</td>
<td>Displays the PT screen. Allows the user to operate the PT screen by clicking the web browser.</td>
</tr>
</tbody>
</table>

Reference
- It is possible to prohibit operating the PT screen from the PT while operating the PT screen from the Operation screen. For details, refer to 4 NB Web Interface Settings.
3-4-2 Reloading Screen Display
The Operation screen periodically reads a screen displayed on the PT and updates the display. The reload interval can be set in the Configuration screen (Default: 3 seconds).

It is also possible to set the time from when the user mouse clicks until the Operation screen reads a PT screen and updates the display. (Default: 1 second).

For details on the setting, refer to 4 NB Web Interface Settings.

Reference
- The Reload Interval in the Monitor screen and Reload Interval in the Operation screen are independent from each other. Thus, they must be set separately.
4 NB Web Interface Settings

This section explains the NB Web Interface settings.

4-1 NB Web Interface Settings

4-1-1 Configuration Screen

The Configuration Screen is used to make settings for NB Web Interface.

1. Display the Configuration screen.

<table>
<thead>
<tr>
<th>No.</th>
<th>Item</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Setting Items</td>
<td>Settings for NB Web Interface. For details on the settings, refer to 4-1-2 NB Web Interface Settings.</td>
</tr>
<tr>
<td>2</td>
<td>apply</td>
<td>Reflects the setting changes in NB Web Interface.</td>
</tr>
<tr>
<td>3</td>
<td>save</td>
<td>Reflects the setting changes in NB Web Interface. Also saves those changes in the PT.</td>
</tr>
<tr>
<td>4</td>
<td>default</td>
<td>Returns all settings to the default settings.</td>
</tr>
<tr>
<td>5</td>
<td>reset</td>
<td>Cancels the setting changes currently being input, and returns to the settings before change.(return to the last valid settings)</td>
</tr>
</tbody>
</table>
2. Set each item, then click **apply** or **save** button.

3. A window stating of configuration done is displayed.

![Configuration Done](image)

4. When three seconds elapsed after "Configuration Done" screen is displayed, the window automatically displays a screen set for **Initial Page**.

### 4-1-2 NB Web Interface Settings

Setting items in the Configuration screen are explained here.

#### Monitor Setting

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
<th>Corresponding screen</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reload Interval</td>
<td>Set the time from when the Monitor screen reads a PT screen until when it next reads the NB screen. Between 2 and 99 seconds can be set. (Default: 15 seconds)</td>
<td>Monitor screen</td>
</tr>
</tbody>
</table>
| Display Pic Format | Set which images format used when a PT screen is transferred. There are three formats can be select: BMP, JPEG and PNG. (Default: BMP)  
- Checked: Use  
- Unchecked: Not use  
When PNG images are used, user can set the compression level for PNG formats in the option "Compression Level". | Monitor screen, Operation screen |
| PNG Compression Level | Set the compression level for creating PNG data. Between 0(Compression non destructive) and 8(Highest compression rate) can be set. (Default: 3)  
Only enable when selected PNG format in "Display Pic Format". | Monitor screen, Operation screen |
| Display Date and Time | Set whether to display the date and time when the PT screen is captured on the bottom of Monitor screen. (Default: Selected)  
- Checked: Displayed  
- Unchecked: Not displayed | Monitor screen |
| Use Authentication | Set whether to use the user authentication or not when specifying a URL for Monitor screen. (Default: Unchecked)  
- Checked: User authentication used  
- Unchecked: User authentication not used | Monitor screen |
### Operation Setting

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
<th>Corresponding screen</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reload Interval</td>
<td>Set the time from when Monitor screen reads an NB screen to when it reads the next NB screen. Between 2 and 99 seconds can be set. (Default: 3 seconds)</td>
<td>Operation screen</td>
</tr>
<tr>
<td>Delay After Click</td>
<td>Set the time from when mouse is clicked to when an NB screen is read. Between 0 and 99 seconds can be set. (Default: 1 second)</td>
<td>Operation screen</td>
</tr>
<tr>
<td>Disable Touch Panel</td>
<td>Set whether or not to accept inputs at the PT while the Operation screen is being shown. (Default: Unchecked) -Checked: Not accept touch inputs -Unchecked: Accept touch inputs</td>
<td>Operation screen</td>
</tr>
</tbody>
</table>

**note1**: If user checked “Disable Touch Panel” option and entered the operation screen in browser then disconnect Ethernet cable, NB will waiting 5min for touch control restoration.

### Server Setting

<table>
<thead>
<tr>
<th>Item</th>
<th>Description</th>
<th>Corresponding screen</th>
</tr>
</thead>
<tbody>
<tr>
<td>Page Title</td>
<td>Set the web page title of up to 64 characters. (Default: NB Web Interface name and its version) Only support ASCII.</td>
<td>All screens</td>
</tr>
<tr>
<td>Initial Page</td>
<td>Set a screen shown when “http://(PT IP address)/” is specified as a URL and when the Configuration screen is closed. (Default: Menu)</td>
<td>-</td>
</tr>
<tr>
<td>TCP Port</td>
<td>Specify the TCP port number that NB Web Interface uses. Port numbers 80, 8080, and between 49152 and 65535 can be input. (Default: 80) When this setting is changed, NB Web Interface will cut the connection, and wait to connect using the specified port number. Note: Safari browser cannot use 65535 for port number.</td>
<td>All screens</td>
</tr>
<tr>
<td>User JavaScript</td>
<td>Set whether to use JavaScript for screen reloading and screen operation. (Default: Checked) -Checked: Use -Unchecked: Not use</td>
<td>Monitor screen, Operation screen</td>
</tr>
</tbody>
</table>

### Reference

- If an invalid value such as a value out of the range is inputted in any fields in the Configuration screen and the “apply” or “save” button is clicked, the value before change will be set in the corresponding fields. If the TCP Port setting is changed, NB Web Interface will cut the connection temporarily. Specify a port number and re-connect from a web browser.

For example, specify a URL as follows:

When the PT IP Address is 192.168.0.1 and the set port number is 8080. The URL should be input in browser is: http://192.168.0.1:8080/ (Input “:port number” after the IP address). If 80(default) is set as the port number, it don’t needs to be specified.
5 Authentication settings

5-1 Change user name and password

1. Connect NB terminal to PC then open NB-Manager.
2. In NB-Manager select “Web Interface Operation” on the left side, the setting page will be displayed on the right side.
3. Input new user name, password, confirm password and click “Save Set”, the new login data has been registered in NB.

Note:
1. Maximum length of user name and password is 32 char.
2. User name and password only support English letters and Arabic numerals.

Reference
- For connecting NB with PC, please refer to chapter 2-3 Connecting of NB-series with PC of NB series Setup Manual.

5-2 Default user name and password Restoration

If user wants to restore the default user name and password just click “Default” button then click “Save Set” button.

Default login data:

<table>
<thead>
<tr>
<th>User Name</th>
<th>Password</th>
</tr>
</thead>
<tbody>
<tr>
<td>default</td>
<td>default</td>
</tr>
</tbody>
</table>
6 Troubleshooting

This section explains the troubleshooting measures when errors occur in NB Web Interface.

6-1 Error Messages

This section describes error messages displayed during using NB Web Interface and their countermeasures.

<table>
<thead>
<tr>
<th>Message</th>
<th>Cause</th>
<th>Countermeasure</th>
</tr>
</thead>
<tbody>
<tr>
<td>401 Authorization Required</td>
<td>In the user authentication screen, an incorrect user name or password is entered.</td>
<td>Enter the correct user name and password.</td>
</tr>
<tr>
<td>404 Not Found</td>
<td>The specified URL is incorrect.</td>
<td>Specify the correct URL.</td>
</tr>
<tr>
<td>NB Image</td>
<td>Cannot properly transfer image data from the PT to a web browser. This occurs due to an excessive network load or with some browsers.</td>
<td>Click Refresh Button on the web browser.</td>
</tr>
<tr>
<td>Cannot find server or DNS error</td>
<td>An attempt was made to connect to a PT model that does not support the NB Web Interface.</td>
<td>Cannot connect to a model that does not support the NB Web Interface. For information on models that support the NB Web Interface, refer to 1-3-1 Necessary NB Series Configuration.</td>
</tr>
<tr>
<td></td>
<td>Not set bit register LB9175 to ON.</td>
<td>Set bit register LB9175 to ON.</td>
</tr>
<tr>
<td></td>
<td>The specified IP address in a URL is incorrect.</td>
<td>Check the PT IP address. Then specify the correct IP address.</td>
</tr>
<tr>
<td>Other error messages</td>
<td>An excessive load is applied to the network or PT.</td>
<td>Wait a while and try again.</td>
</tr>
</tbody>
</table>

Terms and Conditions of Sale

1. Offer, Acceptance. These terms and conditions (these “Terms”) are deemed part of all purchase orders, contracts, purchases, transactions, and other agreements of Omron Companies (collectively, “Omron”) for the products and services provided by Omron Electronics LLC and its subsidiary companies (“Omron”). Omron objects to any terms or conditions proposed in Buyer’s purchase order or other documents which are inconsistent with, or in addition to, these Terms.

2. Prices; Payment Terms. All prices stated are current, subject to change without notice, and are exclusive of taxes, transportation, installation, and insurance. Unless otherwise stated in writing by Omron, prices are FOB Omron’s shipping point. Buyer shall bear all costs involved in obtaining any government approvals required for the importation or sale of the Products. Taxes. All taxes, duties and other governmental charges (other than general real property and income taxes), including any interest or penalties thereon, imposed directly or indirectly on Omron or required to be collected directly or indirectly by Omron for the manufacture, production, sale, delivery, importation, exportation, storage, or use of the Products sold hereunder, including customs duties and sales,excise, use, turnover and license taxes shall be charged to and remitted by Buyer to Omron.

3. Delivery; Shipping. Delivery dates are estimates only; and Omron reserves the right to increase or decrease prices and (i) if Buyer fails to make payment when due or (ii) if any Promotions are cancelled. Any advice, recommendation or information given orally or in writing, or any course of dealing between Buyer and Omron shall operate as a waiver or modification of any of the provisions of these Terms except where (a) waiver is in writing and signed by an authorized officer of Omron, or (b) there is an express written agreement to the contrary.

4. Interest. If any amount is owed to Omron after shipment, Buyer shall pay interest on the amount owed at the rate of 1-1/2% per month or the maximum rate permitted by law, which is less, on any balance not paid within the stated terms.

5. Orders. Omron will accept no order less than $200 net billing.

6. Governmental Approvals. Buyer shall be responsible for, and shall bear all costs involved in, obtaining any government approvals required for the importation or sale of the Products.

7. Taxes. All taxes, duties and other governmental charges (other than general real property and income taxes), including any interest or penalties thereon, imposed directly or indirectly on Omron or required to be collected directly or indirectly by Omron for the manufacture, production, sale, delivery, importation, exportation, storage, or use of the Products sold hereunder, including customs duties and sales,excise, use, turnover and license taxes shall be charged to and remitted by Buyer to Omron.

8. Financial. If the financial position of Buyer at any time becomes unsatisfactory to Omron, Omron reserves the right to stop shipments or require satisfactory security from Buyer, or to make partial payment of the Products supplied hereunder (including customs duties and sales,excise, use, turnover and license taxes) in the condition claimed.

9. Cancellation, etc. Orders are subject to rescheduling or cancellation without notice by Omron at any time at its discretion, even after receipt by Omron of Buyer’s payment in full or after Buyer’s receipt of the Product. Delivery and shipping dates are estimates only.

10. FOB. If FOB is allowed, Buyer shall be responsible for, and shall bear the costs of, insurance, freight, taxes, duties, and other charges for transportation or delivery of the Products from Omron’s shipping point.

11. Shipping; Delivery. Unless otherwise expressly agreed in writing by Omron, (a) all shipments will be made by a carrier selected by Omron; Omron will not drop ship in “breach of warranty” cases; (b) such carrier shall act as the agent of Buyer and delivery to such carrier shall be deemed delivery to Buyer; (c) all sales and shipments of Products shall be FOB shipping point unless otherwise stated in writing by Omron; at which point title and risk of loss shall pass from Buyer to Omron; provided that Omron shall retain a security interest in the Products until the full purchase price is paid; (d) delivery and shipping dates are estimates only; and (e) Omron will package Products as it deems proper for protection against normal handling and extra charges apply to special conditions.

12. Claim. Buyer shall assert any claim for damage to or defect in the Products occurring before delivery to the carrier as soon as possible after receipt of the Products. Buyer must make a claim within 5 days of receipt of the Products to which claim is made.

13. Warranty. Omron’s exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of two years from the date of sale by Omron or the date of delivery to Buyer if the Product is a Programmable Product that has not been used in a System and that has not been tested or used. Omron disclaims all other warranties, express or implied, including, but not limited to, the implied warranties of merchantability, fitness for a particular purpose, or non-infringement.

14. Limitations. OMROM MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY, OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. Buyer acknowledges and agrees that the Products may not be suitable for all intended uses and that this Warranty Statement does not apply to any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right, (c) Buyer Remedy. Omron’s sole obligation hereunder shall be to ship Omron’s election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement herein) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for or incur any warranty, repair, or indemnification expenses regarding the Products unless Omron’s analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be responsible for the performance of, or any difficulties or uncontrollable circumstances related to, any of the “Products.”

15. Indemnities. Buyer shall indemnify and hold harmless Omron Companies and its employees from any and all claims, losses, damages, or expenses (including attorney’s fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Omron is a party) which arises or is alleged to arise from (i) Buyer’s acts or omissions under these Terms or in any way with respect to the Products. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Omron and defend or settle any action brought against such Companies to the extent based on a claim that any Product made to Buyer specifications infringed intellectual property rights of any third party.

16. Property; Confidentiality. Any intellectual property in the Products is the exclusive property of Omron and is protected by patents, copyrights, trademarks, and other laws and regulations, and no part of the Product shall be used or disclosed by Buyer for any purpose other than Buyer’s own use of the Product. Buyer shall comply with all applicable laws, regulations and requirements of any government authority.

17. Export Controls. Buyer shall comply with all applicable laws, regulations and licences regarding (i) export of products or information; (ii) sale of products to countries subject to United States export control laws; (iii) sale of products to any country under U.S. economic sanctions; and (iv) any other applicable laws, regulations, or licences. Buyer shall indemnify and hold harmless Omron against all related costs or expenses.

18. Miscellaneous. (a) Waiver. No failure or delay by Omron in exercising any right or no course of dealing between Buyer and Omron shall operate as a waiver of rights by Omron. (b) Assignment. Buyer may not assign its rights hereunder without Omron’s written consent. (c) Law. These Terms are governed by the law of the jurisdiction of the home office of the Omron company from which Buyer is purchasing the Products (without regard to conflict of laws principles). (d) Amendment. These Terms constitute the entire agreement between Buyer and Omron relating to the purchase of the Products. Buyer shall not have the right to alter or modify these Terms, except as specifically provided in writing by Omron. (e) Severability. If any provision hereof is rendered ineffective or invalid, such provision shall not invalidate any other provision. (f) Survival. Any and all provisions shall survive delivery or waiving in writing by the parties. (g) Definitions. As used herein “including” means including but not limited to, and any other period of time for which term or word is defined by the phrase “such as” (or similar words) mean Omron Corporation and any direct or indirect subsidiary or affiliate thereof.

Certain Precautions on Specifications and Use

1. Suitability of Use. Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer’s application or use of the Product. At Buyer’s request, Omron will provide applicable third party certification documents identifying regulatory limits and conditions. Any application of this Product to any other use or use with any other application in which Omron’s Performance Data reflects its limitations as is not sufficient for a complete determination of the suitability of the Product for that particular application, including production and/or non-production use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer’s application, product or system. Buyer’s failure to assume responsibility in all of the following is a non-exhaustive list of applications for which particular attention must be given: (i) indoor or outdoor use; (ii) use in a potentially hazardous environment; (iii) use in an environment potentially containing ionizing radiation, electrical interference, or conditions or uses not described in this document. (ii) Use in consumer products or any use in significant quantities.

2. Programmable Products. Omron Companies shall not be responsible for the performance of, or any difficulties or uncontrollable circumstances related to, any of the “Products.”

3. Performance Data. Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and in any way without the written permission of Omron. Notwithstanding any charges to Buyer for engineering or tooling, all engineering and tooling shall remain the exclusive property of Omron and Buyer shall not have the right to alter or modify these Terms, except as specifically provided in writing by Omron. Buyer shall indemnify and hold harmless Omron against all related costs or expenses.

4. Change in Specifications. Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult your nearest Omron representative to confirm actual specifications of purchased Product.

5. Errors and Omissions. Information herein has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

ADDRESS THE RISKS, AND THAT THE OMROM’S PRODUCT IS PROP- ERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL SYSTEM OR EQUIPMENT. 2. Programmable Products.
