

Invest in your future productivity today

Omron equipment financing

- Get the equipment you need to take your business to the next level on a “buy now, pay later” basis
- Flexible financing options available
 - Choose from a variety of options, Including 0% interest payments for 24 months
 - Offer subject to formal credit approval
- Preserve your working capital
 - Get the equipment you need now while preserving your working capital for future projects

Maximize your business potential

No matter how well we plan, it is impossible to anticipate all the uncertainties that arise in the manufacturing world today. Whether it's an unexpected surge in demand that outpaces your current production capacity, new competitive pressures that surpass your current capabilities, or even sudden breakdowns or damages to your current plant or equipment, these can all put a strain on capital budgets and cash flows.

Omron is proud to make it easier than ever to get the equipment you need to maximize the potential of your business and give you access to the technology you need to grow your business.

Flexible Financing Programs

Omron satisfies your unique financing needs in the following areas:

- Flexible loan term lengths
- Over 90% approval rate
- 0% Interest payment options
- Servicing US and Canada
- Small down payment requirements
- Competitive rates with no hidden charges
- Ability to approve equipment categories for almost any credit profile
- Approval can be based on capital equipment value, not your credit rating or history

Financing for your Omron product

Do you have an immediate need for an automation solution, but can't wait for the project to be funded through your capital process? Our financing options allow you to get the equipment you need now while preserving your working capital.
