Small-diameter Proximity Sensor
E2E

Ultra small size and simple to install!

• With the addition of M4, 5.4-dia., 6.5-dia. size, unshielded, pre-wired connector model, and connector model, a total of 108 model variations are available.
• High-speed response frequency stably detects moving objects: 5 kHz max.
• Four indicator LEDs for easier indicator positioning.
• Special mounting brackets reduce time and efforts for installation.
• Stainless-steel Spiral Tube protects against wire breakage is available (M4, M5 only).
• Models also available with standard cables that are 5 m long or with robot (bending-resistant) cables.

Refer to Safety Precautions on page 10.

Features

Lineup of global small-diameter types (3 dia., 4 dia., 5.4 dia., 6.5 dia., M4, M5)

• A lineup of unshielded models for long distance sensing is also available. Stable long distance sensing performance enables worry-free use even when the work flow is unsteady.

Bright operation indicators make it easy to view operation status

• Four indicator LEDs in a 360 degree layout can be easily seen.

Low current consumption: 10 mA max.

• Current consumption is 2/3 that of conventional small diameter proximity sensors.

Protective Stainless-steel Spiral Tubes available

• Lineup of protective tubes for M4 and M5 sizes. Reduces wire breakage due to catching and shock.

High-speed response enables sharp detection timing

• 5 kHz response frequency max.

Protection circuits prevent failures due to wiring mistakes.

• Load short-circuit protection and output reverse polarity protection circuits are incorporated.

#### Setting distance **1**

- **Shielded**: 0 to 0.56 mm 0 to 1.0 mm 0 to 2.1 mm 0 to 0.7 mm 0 to 1.4 mm 0 to 2.8 mm 0 to 0.56 mm 0 to 1.4 mm 0 to 2.1 mm 0 to 0.84 mm
- **Unshielded**: 0 to 0.56 mm 0 to 1.0 mm 0 to 2.1 mm 0 to 0.7 mm 0 to 1.4 mm 0 to 2.8 mm 0 to 0.56 mm 0 to 1.4 mm 0 to 2.1 mm 0 to 0.84 mm

#### Differential travel

15% max. of sensing distance

#### Detectable object

- Ferrous metal (The sensing distance decreases with non-ferrous metal. Refer to Engineering Data on page 7.)

#### Standard sensing object

- Iron, 3 × 3 mm
- Iron, 6 × 6 mm
- Iron, 4 × 4 mm
- Iron, 9 × 9 mm
- Iron, 3.5 × 3.5 mm
- Iron, 12 × 12 mm
- Iron, 3 × 3 mm
- Iron, 6 × 6 mm
- Iron, 4 × 4 mm
- Iron, 9 × 9 mm

#### Response frequency **2**

- 5 kHz
- 3.5 kHz
- 4 kHz
- 2 kHz
- 4 kHz
- 3 kHz
- 5 kHz
- 3.5 kHz
- 4 kHz
- 2 kHz

#### Power supply voltage **3**

- 5 to 30 VDC (including 10% ripple (p-p))

#### Current consumption

- 10 mA max.

#### Control output **4**

- Load current: 50 mA max.
- Residual voltage: 2 V max.

#### Indicators

- Operation indicator: Yellow (complies with European standard EN60947-5-2) Lights during output.

#### Operation mode

- B1/B2: PNP open collector
- C1/C2: NPN open collector

#### Protection circuits

- Output reverse polarity protection, Power source circuit reverse polarity protection, Surge suppressor, Load short-circuit protection

#### Ambient temperature range

- Operation and storage: –25 to 70°C (with no icing or condensation)

#### Ambient humidity range

- Operation: 35% to 95% (with no condensation)

#### Voltage influence

- ±15% max. of sensing distance at 23°C within temperature range of –25 to 70°C

#### Insulation resistance

- 50 MΩ min. (at 500 VDC) between current-carrying parts and case

#### Vibration resistance

- Destruction: 1 to 55 Hz, 1.5-mm double amplitude for 2 hours each in X, Y, and Z directions

#### Shock resistance

- Destruction: 500 m/s² 10 times each in X, Y, and Z directions

#### Degree of protection

- IEC 60529 IP67, in-house standards: oil-resistant **6**

#### Connecting method

- Pre-wired Models: Yes
- M8 Pre-wired Connector Models: Yes
- M8 Connector Models: Yes

#### Weight (packed state)

- Pre-wired Models: 25 g
- M8 Pre-wired Connector Models: 20 g
- M8 Connector Models: 10 g

#### Materials

- Case: SUS303 (EN 1.4305) **7**
- S04SR8 (EN 1.4435) **7**
- Nickel-plated brass

#### Accessories

- Instruction manual: Yes
- Model label: Yes
- Mounting brackets: Sold separately

---

*1. Using within the set distance enables high-speed responsiveness and a more stable repeat accuracy.*

*2. The response frequency is an average value.*

*3. When used at a power of 12 V, the Sensor is less susceptible to the effects of internal self heat generation and therefore a more stable repeat accuracy can be obtained.*

*4. When the control output is 20 mA or less, the Sensor is less susceptible to the effects of internal self heat generation and therefore a more stable repeat accuracy can be obtained.*

*5. 3 dia., M4: load current 50 mA, cable length 2 m 4 dia., 5.4 dia., M5: load current 100 mA, cable length 2 m 6.5 dia.: load current 200 mA, cord length 2 m.*

*6. Oil resistance in-house standard: Performance with respect to water insoluble oil.

*7. Material name in EN standards.*

*8. Clamping nuts: 2 pieces, toothed washer: 1 piece

Sensing distance vs. repeat accuracy graphs

By using within the sensor installation distance, the repeat accuracy stabilizes.

This data is reference data based on a standard sensing object, and is not a guarantee of performance.

The repeat accuracy varies depending on the effects of temperature, the material and surface condition of the sensing object, and other conditions.

### Connection to I/O Connector (Connector Models, Pre-wired Connector Models)

**Sensor I/O Connector**

![I/O connector cable, connector arrangement diagram]

**XS3F-M32\(\text{-}-\)3\(\text{---}\)R**
Safety Precautions

Refer to Warranty and Limitations of Liability.

**WARNING**
This product is not designed or rated for ensuring safety of persons either directly or indirectly. Do not use it for such purposes.

**CAUTION**
- Do not short the load. Explosion or burning may result.
- Do not supply power to the Sensor with no load, otherwise Sensor may be damaged.

Precautions for Correct Use
Do not use this product under ambient conditions that exceed the ratings.

- **Design**

  **Influence of Surrounding Metal**
  When mounting the Sensor within a metal panel, ensure that the clearances given in the following table are maintained. Failure to maintain these distances may cause deterioration in the performance of the Sensor.

  **(Shielded Models)**

</tbody>
</table>

If mounted in a surrounding non-magnetic metal such as aluminum or copper, the sensing distance may shorten by about 40 to 50%. If used in a recessed installation, take into consideration the effects of the material on the sensing distance.

**Mutual Interference**
When installing Sensors face-to-face or side-by-side, ensure that the minimum distances given in the following table are maintained.

<table>
<thead>
<tr>

* Values when the connector size is not taken into consideration.
Mounting

Tightening Force

(Mounting threaded models (E2E-S@))
Do not tighten the nut with excessive force.
A washer must be used with the nut.

Note:
1. Only use the provided nut and toothed washer.
   Risk of changes in the sensing distance and damage if a different
   material is used. If you lose the nut or washer, purchase an optional nut
   set.
2. The following strengths assume washers are being used.

<table>
<thead>
<tr>
<th>Size</th>
<th>M4</th>
<th>M5</th>

</thead>
<tbody>
<tr>
<td>Item</td>
<td>Shielded</td>
<td>Unshielded</td>
</tr>
<tr>
<td>Tr</td>
<td>0.8 N·m</td>
<td>1 N·m</td>
</tr>
</tbody>
</table>

Note: Only use the provided nut.

(Mounting unthreaded cylindrical models (E2E-C@))

* Excluding the operation indicator area.

When using a set screw, tighten it to the torque indicated in the table above.

Oil resistance

In accordance with our oil resistance standard, we test oil resistance based on water insoluble oil (complies with test oil based on JIS C0920, Appendix 1).
When water soluble cutting oil is used, durability varies due to the dilution ratio and other factors.
Please test oil resistance using the actual oil that will be used.

High-speed responsiveness

To obtain a better high-speed response, it is recommended that you use the sensor at about 50% of the possible sensing distance.
A high-speed response may not be obtained with some sensing object surfaces, materials, and shapes, or when the sensing distance is greater than the set distance.
For the effects of materials, refer to Engineering Data on page 7.

Protective Stainless-steel Spiral Tube

The spiral tube is in a fixed state and is intended to provide protection against wire breakage due to shock from tools or other objects.

Repeated cable bending tolerance

If you require repeated bending tolerance, use a sensor with a robot (bending-resistant) cable or use a Connector Model together with a connector cable that is specified for bending tolerance. (Example: XS3F-M321-@@@-R)
Refer to Sensor I/O Connector on page 5.

Block type mounting accessories

Due to differences in dimensional tolerances, these cannot be used with older small diameter proximity sensors. (E2E-CR6@, E2E-CR8@, E2E-C1@)

Bending radius for mounting

If the cable is bent from its base, the resin on the surface of the cable may peel off, however, this will not affect the protective structure or sensing performance.
Avoid bending the cable at less than 10 mm from the base.
When bending the cable, refer to the table below.

<table>
<thead>
<tr>
<th>Cable diameter</th>
<th>Bending radius*</th>
</tr>
</thead>
<tbody>
<tr>
<td>3 dia., M4</td>
<td>7 mm</td>
</tr>
<tr>
<td>4 dia., 5.4 dia., M5</td>
<td>9 mm</td>
</tr>
<tr>
<td>6.5 dia.</td>
<td>12 mm</td>
</tr>
</tbody>
</table>

* For a robot (bending-resistant) cable, multiply the bending radius in the above table by 1.7.

Total Cable Length

If you extend the cable length, use a conductor cross section of 0.14 mm² or greater and do not exceed a total length of 200 m for standard cables or robot (bending-resistant) cables. It is assumed that an independent metal conduit will be used.

Terms and Conditions of Sale

1. Offer; Acceptance. These terms and conditions (these "Terms") are deemed part of all quotations, purchase orders, contracts, agreements, understandings, catalogs, manuals, brochures and other documents, whether electronic or in writing, and all purchases, returns, exchanges and rescissions of products and services hereunder. The purchase of products and services hereunder by Omron Electronics LLC and its subsidiary companies ("Omron"). Omron objects to any terms or conditions proposed in Buyer’s purchase order or other documents which are inconsistent with, or in addition to, these Terms. 

2. Prices; Payment Terms. All prices stated are current, subject to change without notice. Price lists, price sheets, catalogs, and other documents produced by Omron or otherwise made available to Buyer by Omron or any direct or indirect subsidiary or affiliate thereof ("Products") are subject to Omron’s current valid price and as such shall be adhering all expenses related thereto ("Terms") are subject to the non-complying Product; provided that in no event shall Omron be responsible for any warranty issues regarding the Products unless Omron’s analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be responsible for the non-complying Product or, if repair or replacement (hereinafter referred to as a "Product") is deemed to the extent based on a claim that any Product made to Buyer specifications infringed intellectual property rights of another party. 

14. Limitation of Liability. Except for the limited warranty set forth herein, "including without limitation"; and "Omron Companies" shall not be liable for any indirect, incidental, or consequential damages, loss of profits or production or commercial loss in any way connected with the Products, or any of them, or any part thereof, under any provision. 

17. Micrionalia. (a) Waiver. No failure or delay by Omron in exercising any right or notice and no course of dealing between Buyer and Omron shall operate as a waiver of any rights of Omron or any of its subsidiaries or affiliates, or any provisions hereof. Buyer may not assign its rights hereunder to any other party. 

18. Export Controls. Buyer shall comply with all applicable laws, regulations and licenses regarding (i) export of products or information; (ii) sale of products to "forbidden" or other proscribed persons; and (ii) disclosure to non-citizens of restricted technology or information. 

15. Indemnities. Buyer shall indemnify and hold harmless Omron Companies and their employees from and against any and all claims, losses, costs, damages, expenses (including attorney's fees and expenses) related to any claim, investigation, litigation or proceeding (whether or not Omron is a party) which arises out of Buyer's acts or omissions under these Terms or in any way with respect to the Products. Without limiting the foregoing, Buyer (at its own expense) shall indemnify and hold harmless Omron and defend or settle any action brought against such Companies to the extent based on a claim that any Product made to Buyer specifications infringed intellectual property rights of another party. 

11. Shipping; Delivery. Unless otherwise expressly agreed in writing by Omron: 

a. Shipments shall be by a carrier selected by Omron; Omron will not drop ship but may use Omron's "freeboard" or "freight on board" language. 

b. Such carrier shall act as the agent of Buyer and delivery to such carrier shall constitute delivery to Buyer; 

c. All sales and shipments of Products shall be FOB shipping point (unless otherwise stated in writing by Omron), at which point title and risk of loss shall pass from Buyer to Omron; provided that Omron shall retain a security interest in the Products until the full purchase price is paid; 

d. Delivery and shipping dates are estimates only; and 

e. Omron will package Products as it deems proper for protection against normal handling and extra charges apply to special conditions. 

12. Overnight Shipping. For all orders shipped overnight, Buyer shall arrange for the receiving and delivery of the Products occurring before delivery to the carrier must be presented in writing to Omron prior to receipt of the invoice. Failure to accompany the invoice or purchase order with the purchase order bill signed by the carrier noting that the carrier received the Products from Omron in the condition claimed. 

13. Warranties. Omron’s exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of two years from date of shipment by Omron. Omron disclaims all other warranties, express or implied, and Buyer is purchasing the Products (without regard to conflict of law principles). 

14. Risk of Loss. Risk passes to Buyer at the point of shipment, and Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be responsible for any warranty issues regarding the Products unless Omron’s analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be responsible for any warranty issues regarding the Products unless Omron’s analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be responsible for the non-complying Product or, if repair or replacement (hereinafter referred to as a "Product") is deemed

Certain Precautions on Specifications and Use

1. Suitability of Use. Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying rating and load limitations. Any application (hereinafter referred to as "Products") is subject to Omron's "including without limitation"; and "Omron Companies" shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations, information given orally or in writing, are not to be construed as an amendment or addition to the above warranty. 

2. Programmable Products. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations, information given orally or in writing, are not to be construed as an amendment or addition to the above warranty. See http://www.omeront.com or contact your Omron representative for published information. 

3. Performance Data. Omron's (a) Exclusive Warranty 

4. Inspection. At Omron's option, may be approved in writing by Omron before shipment. Omron Companies shall not be responsible for the non-complying Product or, if repair or replacement (hereinafter referred to as a "Product") is deemed

5. Export Control. Buyer shall comply with all applicable laws, regulations and licenses regarding (i) export of products or information; (ii) sale of products to "forbidden" or other proscribed persons; and (ii) disclosure to non-citizens of restricted technology or information. 

6. Miscellaneous. (a) Waiver. No failure or delay by Omron in exercising any right or notice and no course of dealing between Buyer and Omron shall operate as a waiver of any rights of Omron or any of its subsidiaries or affiliates, or any provisions hereof. Buyer may not assign its rights hereunder to any other party.
